

Your support matters!

What we do

Your donation helps us to:

- Promote the expansion of renewable energy use through efficient knowledge sharing.
- Inform the public on the importance of reliable and sustainable energy access.
- Actively support energy experts in sharing their knowledge.
- Maintain and expand our high-quality information pool.
- Keep www.energypedia.info online and continue to develop it technically.
- Assure that www.energypedia.info remains independent and free of charge.

Donation account:

IBAN: DE47500310001008393008
SWIFT / BIC: TRODDEF1

Do you have a concrete project proposal?

Please contact us if you would like to implement a specific project with us. We are open to innovative ideas on knowledge management and renewable energy use in developing countries. If you are interested in a long-term partnership with energypedia, please feel free to approach. We welcome new partnerships!

Legal form & non-profit status

Due to our activities in promoting development cooperation through knowledge and technology transfer, we have been recognized by German tax authorities as a non-profit organization. Therefore, donations to energypedia are tax-deductible in Germany.

Your support matters

Energypedia depends on financial contributions to continue offering free, independent and high-quality information about renewables, energy access and energy efficiency in developing countries. Energypedia needs your contributions to continuously develop and improve knowledge products and to run the platform www.energypedia.info including user support, hosting, maintenance, and awareness creation.

We welcome your questions and suggestions at fundraising@energypedia.info!
