BR!GHT

Power in
your hands

Safe, affordable and clean energy for all

This what we at BR!GHT work for every day! Our products provide access to light and sustainable energy anywhere: from larger cities to remote areas, from Norway to Kenya and more than 40 other countries in the world. We offer a safer everyday by replacing kerosene, diesel and AA-batteries, and cut the monthly cost for power. At BR!GHT, we collaborate with both commercial distributors and the humanitarian sector to develop appropriate products and widen our impact. We strive to make power more accessible providing better possibilities for development and safety.

More than 2,5 million BR!GHT lamps impact the lives of more than 11 million people. Our high-quality products are multifunctional both in use and in light. With ready to go lamps and plug and play home systems, you can easily start enjoying your BR!GHT product straight out of the box. We at BR!GHT embrace the UN's Sustainability Development Goals, and our products are both repairable and recyclable.

Our goal is that you will experience – POWER IN YOUR HANDS

Affiliates & certifications:

This is our **Communication on Progress** in implementing the principles of the **United Nations Global Compact** and supporting broader UN goals.

We welcome feedback on its contents.

Start / Start +

Pocket-sized solar lamp for your everyday lighting needs.

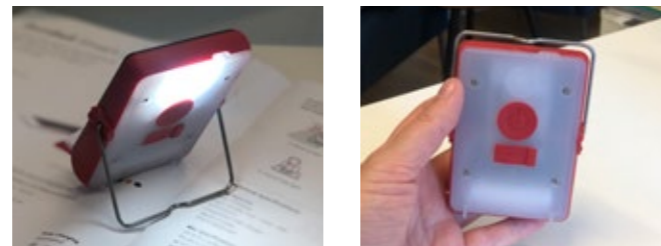

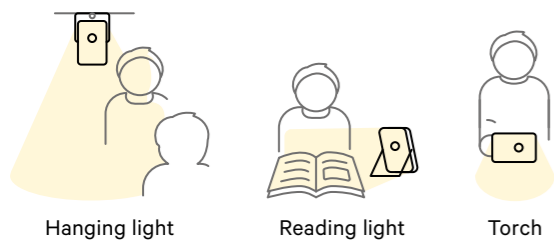

Start is a solar powered light covering most lighting needs packed in a clever size.

Its portability and low weight make it easy to carry and the included metal stand lets you optimize both charging and lighting.

With Start you get up to 75 hours in one charge, providing you with all the light you need on-the-go. Start + can also be charged with electricity through the included micro-USB port.

Start +

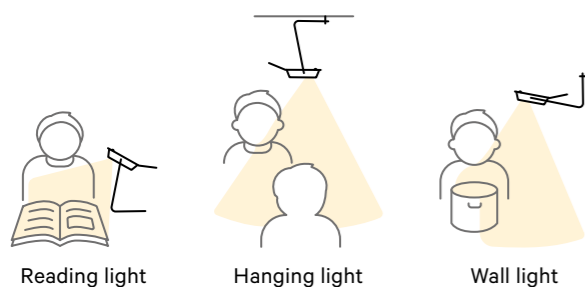

SunTurtle

An affordable and effective solar lamp – perfect for reading or as a portable light.

A clever little solar lamp that covers all basic light needs. Its all integrated solar panel makes it easy to use and adaptable for everyday situations.

SunTurtle is an award-winning solar lamp that can turn any standard plastic bottle into a lamp stand and can be attached to a backpack for easy charging.

By mounting the FlexFoot, SunTurtle can be used as a reading light, ceiling light or wall-mounted light. SunTurtle is the perfect portable solar lamp, easy to bring and attach anywhere.
