# Portals on energypedia

- Portals link to many other related sites and allow you a quick introduction into a topic
- Currently there are 8 portals on energypedia

The screenshot shows a vertical menu on the left with the following items: Solar, Hydro, Biogas, Grid, Improved Cooking, Countries, Impacts, and Energy Use. An arrow points from the 'Solar' item to a detailed view of the 'Solar Portal' page on the right.

**Portals**

- Solar
- Hydro
- Biogas
- Grid
- Improved Cooking
- Countries
- Impacts
- Energy Use

**Solar Portal**

**Technological Aspects**

- Solar Energy, Solar Thermal Technologies, Solar Electric Technologies, Concentrating Solar Power (CSP)
- Solar Home Systems, PicoPV (Solar lanterns), Solar Hybrid Systems, more

**Quality Tests of PV Systems**

- PicoPV Laboratory Test, PicoPV Field Tests

**Policy Framework**

- International Organisations dealing with Solar Energy, Funding Mechanisms for Solar Energy Measures

**Costs, Financing, Business and Operation Models**

- Business Operation Models, Marketing, After Sales Service, Quality Management, Import of Solar Energy Products, Microfinance
- Solar Home Systems, PicoPV (Solar lanterns), Solar Hybrid Systems

# Search

- With the search list you can search for various aspects of a wiki

## Official Commissioning of 60 kW PV Plant at the SOS Children's Village in Mombasa

[edit]

This Friday, July 1st Kenya's first grid-connected PV plant officially starts operating at the SOS Children's Village Mombasa. A 60 kWp photovoltaic system has been installed at the SOS Children's Village to meet the energy needs of the entire school and housing complex. The German company Asantys Systems jointly planned and installed the solar array with their local partner African Solar Designs (ASD) Ltd. In addition to supplying the village with green energy, the system is designed to feed surplus power into the local grid – a novelty in Kenya. Within the initiative "renewables - Made in Germany" financed by the German Ministry of Economics and Technology, the GIZ's Renewable Energy Project Development Programme has supported the realisation of the solar project, one of the largest in East Africa to date.
