### Greeting and Introduction:

- sent by **Ministry of Agriculture**
- carrying out a study in this area on **cooking habits and cooking practices** of women for a feedback to MoA
- information about **objective of the survey (not talk about the improved stove!)**  
BUT the objective is to get to know better the cooking situation in the village in general.
- information to local authorities and concerned chiefs on the **date of the survey** in their location,
- Procedure of survey: focus groups discussions with women, individual household interviews with different categories of households (very poor, medium poor and better off), interviews with households using improved firewood stoves, final discussion with village authorities.
- **Selection of households should be representative for the location!** Definition of the three categories with the Village Chief (very poor, medium poor and better off – according to the definitions Anna identified).  
So for rural:
  - very poor: below Ksh. 988 per adult per month
  - poor: below Kshs. 1562 per adult per month
  - better off: above Kshs. 1562 per adult per monthFor urban:
  - poor: below Kshs. 2913 per adult per month
  - better off: above Kshs. 2913 per adult per month
- Explanation of number of Households to be chosen from each category
  - o A representative number for each category (this depends on the answers of the chief)
  - o Keep in mind the number of households to be interviewed in each district:
